(Left out Portion) Narela, Delhi 110040.

Respected Sir,

We have deposited our colony's map duly prepared and certified by the registered Architect on 29-12-2007 against Regn. No. 197. However, We didn't submit the map in 2004 due to the understanding that we have already deposited the map in 2002 through Town Planning Department (MCD) And Sh. C.S. Kandera Hon'ble MLA Narela, Which is clearly explained in the No Objection Certificate given by MCD Dated 30-07-2002 to the under secretary (UC) UD Department GNCTD for carrying out the development work and our Colony was at Sr. No. 840 in list of 1071 colonies published as Old Colonies for regularization in the paper by Town Planning Department MCD.

So, you are requested to issue the separate certificate for provisional approval. This colony is very old and having its separate Welfare Association named "Swatantar Nagar Welfare Association" Regd. No. S/14939.

Thanking you for early persual of the case.

Sincerely Yours

R/Sir dt-197 S.No

As discussed in meeting today regarding the old left-out-
Pockets of Swatantar Nagar, Narela, Ph-I, Delhi,
It is to say that our colony is very old but we couldn't
submit the map in 2004 with the understanding that
when we have given the Survey/Site Plan in
2001 and the NCD Town Planner has given the NCD
dated 30-7-2002 to LD, NCTD, Delhi with one
Site Plan map also and the basic amenities were
provided like cheap drainage, Khawana & Electric light
etc. Now we have given the Survey/Site layout
plan on 29-12-2007 with all formalities.

This is the oldest colony's left-out-Pocket. I am
also enclosing the Survey Site map drawn in 2001.
Therefore you are requested to issue the approval
certificate.

The Street light is also necessary & essential in such colonies on the main Road, connecting Laxmi Road and Bannana Road. No attention has been given by the concerned authorities in spite of the repeated requests verbal / written.

Subject:- Regarding the provision of civic amenities in colony.

Sir,
We want to draw your kind attention towards the following problems which needs your special attention for development of the colony.

1. civic amenities in the colony built up before 1-1-81.

Town Planner
DESU.

a) Electrification of the remaining portion:- max portion of our colony was electrified in 1988. But some portion left without these facilities i.e. Gali NO 23 to Gali NO 31 and Gali NO 15a, b, c and Gali NO 16. For this we have applied to C.E-II DESU on 15/6/90, but the same has been refused as they require that map (should be certified from Town Planner) that this area was existing before 1-1-81. For this area, some portion already shown in map in the year of 1978 as Gali NO 25, Semakand and Milia Estate etc. On the other side some houses were already built before 1-1-81 as has been certified by the Registrar, Authentication of Delhi Act, in the form of attorney's i.e. Eher (Eher is known as some construction there and some are residing there in the rural areas).

Subject:-For Electric Supply in Swatantar Nagar Narela From Gali No.23 to 31.

R/Sir,

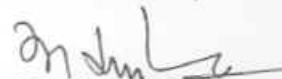

I want to draw your kind attention towards the prevailing problems reg. Electric supply in the colony especially from gali No. 23 to 31. as detailed below:-

1. For providing electric poles and wires in some streets e.g. in gali No.23 there is no poles and conductors the residents are taking the electric supply from the distant streets by the long overhead PVC wires which is resulting in high voltage drop and becomes very unpleasant for the residents for working conditions. In gali No. 26, 27, 28, 29, 31. poles has been provided but the conductors has not been provided. Due to this, the residents are compelled to take the electric supply by PVC wires from the existing electric lines from the other streets at a long distance which resulting in heavy voltage drop and makes jumbling of wires in the streets which may result sometime with a fatal accident.
2. low Voltage in this pocket and for providing 3 phase in these streets to provide the some what more voltage for making easy the working conditions in this area.
3. Transformer of 100 Kw was existing in gali No. 23 previously and it was removed by the ZONAL Engineer telling that it will be replaced by the 400 Kw transformer but till date nothing has been done. If this transformer is to be replaced then some problem of low voltage can be minimized up to some extent.
4. Replacement of faulty PVC TWIN Wire for street light from gali no. 22 to gali no. 27, All the street light wires in these streets which were provided before five years now has been damaged and are to be replaced to make the street light operative.

Therefore you are requested to take the personal interest to remove all these problems so that the residents can feel some relief reg. Power supply in this area. You are also requested to give us time for a meeting with the Association representatives.

Thanking you.

Yours Sincerely
