Dear *Romesh*.

I have your letter of 16 April, 1993 about inclusion of some areas in the proposed regularisation of village Saidula Jab Extension.

It has been passed on to the Chief Secretary for such action as may be feasible.

Yours sincerely,

(P.K.Dave)

Sri Romesh Bhandari,

New Delhi-110016.

Technical Committee of the MCD. Declaring an area as extended Lal Dora is a long drawn out procedure. What in this event needs to be done is to include in the proposed regularisation the additional Khasras mentioned in the appeal. These are ones where commercial activity has been going on for many years and in fairness should also be dealt with in the same manner as the rest of the Village. In this event it would be possible to provide essential services and to collect developmental charges as well. As this village is on the main road, and opposite Saket, it is also desirable that the building and developmental activity is regulated and in accordance with Municipal Bye Laws.

With my best wishes,

Yours sincerely,

Romesh Bhandari

Representatives of the Saidula Jab Development and Cultural Association came to me and gave a copy of an appeal they are making for the inclusion of some areas in the proposed regularisation of Village Saidula Jab Extension. I enclose copies of two notes in this regard.

In order to understand the problem, I visited the area myself. Saidula Jab Village is on the main road from Mehrauli to Badarpur on the opposite side of Saket. A DDA residential complex adjoins it. On the other side there is agricultural land acquired by the DDA. The entire area between the land belonging to the DDA and the DDA Residential complex is built up. These buildings came up fairly long ago. All along the main road there are commercial shops, repair workshops etc. No doubt many buildings have been repaired and renovated in the recent past in view of the increase in population, and, the urbanisation all around this Village.

There are two options. Either the built up areas are included as extended Lal DDA, or, the entire built up area is regularised. The latter appears the better course. In fact according to the attached notes, this is the one proposed by the
