The image shows a document page with a grid-like structure, likely a table or ledger. The page is heavily degraded with noise and artifacts. A large, dark, irregular shape is visible on the left side, suggesting a significant portion of the page is obscured or damaged. The right side shows a grid-like structure, likely a table, with several rows and columns. Some text is visible within the grid cells, but it is mostly illegible due to the poor quality of the scan.

Subject: Clarification regarding MLALAD works / utilization of funds

Dear Sir,

We write in reference to the above stated subject regarding requests received from various MLAs for works related to installation of street lights and shifting of lines. After 100% completion of work we have been receiving the requests from MLAs for installation of display boards on the work sites that said work has been executed under MLALAD fund with constituency and MLA details.

Secondly, DUDA is also asking for completion certificate / letter from respective MLAs for releasing the last instalment/ balance fund. In spite of submission of utilization certificate and other necessary documents related to completion of work, we are facing the issues / delay in release of balance payments.

We seek your support / clarification on the above matter so that all accounts where funds have been received under MLALAD head can be reconciled at the earliest.

We shall be pleased to furnish any other information/clarification on the same as and when required.
